DEVELOPMENT AND GLOBAL
CLIMATE POLITICS

11. July 2024

TO WHOM IT MAY CONCERN:
SLOTS- OG KULTURSTYRELSEN

LETTER OF SUPPORT

Realization of a project on the installation of sculptures by Jens Galschiøt at COP29 in Baku, Azerbaijan.

I would like to hereby announce my support for Jens Galschiøt and Care's application for the realization of a sculpture exhibition that will help to focus on the need for an ambitious goal for a new collective goal on climate finance at the COP29 negotiations in Baku, Azerbaijan in November 2024.

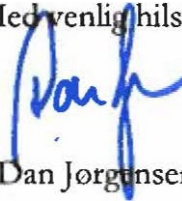

Climate change is one of the biggest and most serious challenges it faces. It is important to have an ambitious result at COP29 in Baku, Azerbaijan. Therefore, if we are to ensure that temperature increases do not exceed 1.5 degrees, it is crucial that we jointly use all means.

Against this background, I support initiatives that raise awareness of the climate crisis and remind us of its seriousness. I therefore consider projects that unite only stones and civil society to articulate an ambitious goal for the international COP negotiations to be both a current and innovative climate call.

Artist Jens Galschiøt is an internationally known and recognized artist who, with his political and sensational works, has managed to put injustice in the world on the international agenda.

Based on the seriousness of the climate crisis and Jens Galschiøt's artistic weight on the international art scene, a sculpture exhibition will help to focus on the need for an ambitious goal for a new collective goal on climate finance at the COP29 negotiations in Baku.

Med venlig hilsen
